

Prompt :

Image 1:

“Ultra realistic full body fashion portrait of a young South Asian male model standing confidently in a minimalist studio setup, soft gray seamless background, hands inside pockets, relaxed straight pose, black leather bomber jacket with subtle graphic texture, white inner t-shirt, black leather pants, black combat boots, curly textured voluminous hair, sharp jawline, light beard, stylish transparent glasses, cinematic soft lighting, high-end editorial photoshoot, symmetrical composition, DSLR quality, ultra detailed skin texture, modern streetwear aesthetic, luxury fashion campaign, centered framing, neutral expression, studio shadow depth, realistic proportions, 85mm lens, shallow depth of field, clean premium look, 8k ultra HD”

For top-angle version:

“High angle top-view fashion portrait of a young South Asian male model looking at camera, standing naturally with hands in pockets, minimalist gray studio background, curly fluffy hair, realistic face details, stylish black bomber jacket, black leather pants, modern streetwear fashion, cinematic lighting, editorial magazine photoshoot, ultra realistic, DSLR photography, depth perspective, soft shadows, luxury aesthetic, sharp focus, clean composition, 8k realistic render”

Image-2

Prompt:

“Create a full-body modern cartoon avatar illustration of a stylish young Indian man with curly black fluffy hair, transparent glasses, trimmed beard, and a calm confident expression. He is wearing a black oversized bomber jacket over a white t-shirt, black cargo pants, and chunky neon green & pink futuristic sneakers. Hands inside pockets, relaxed standing pose, slight head tilt, minimalist clean background, soft pastel tones, smooth shading, high-quality 3D animated character style, Pixar-inspired digital art, soft lighting, detailed hair texture, trendy streetwear aesthetic, centered composition, ultra clean vector-style rendering.”

```

{
  "prompt_type": "AI Website Generation Prompt",
  "title": "Luxury Cinematic Portfolio Footer",
  "prompt": "Design and develop an ultra-premium cinematic portfolio footer section inspired by Awwwards-winning websites using React and Tailwind CSS. The footer should have a vibrant luxury yellow background with massive animated marquee typography moving infinitely in alternating directions. Create multiple layered scrolling text rows with very low opacity for a deep immersive visual effect. Use huge bold typography with ultra-tight tracking and smooth infinite marquee animation.\n\nAt the center of the footer, place a large floating profile image with cinematic drop shadows and responsive scaling. Under the image, create two premium glowing CTA buttons: one blue 'Follow' button with neon glow hover effects and one minimal white 'Message' button with smooth elevation animation.\n\nAdd a modern branding section with a bold luxury logo where one part of the text is dark and the secondary part is white with subtle shadow glow. Include a clean modern tagline below it.\n\nBelow the branding, create responsive navigation links with uppercase typography, wide spacing, smooth hover transitions, and elegant animations.\n\nAdd a minimal divider line with transparency and soft rounded edges.\n\nAt the bottom, create a premium copyright section with responsive layout, small bold typography, and hoverable legal links.\n\nThe overall design should feel futuristic, artistic, immersive, energetic, and cinematic. Use smooth animations, responsive spacing, oversized typography, luxury color contrast, modern shadows, premium hover interactions, and fluid layout"
}
